FREE KETTLE TAP OFFER

Terms and Conditions

Subject to, but not limited to, the following terms and conditions.

10% of the qualifying kitchen spend goes towards the offer and is calculated on the furniture, worktops and flooring spend excluding VAT. For clarification, this excludes, but is not limited to, all additional works such as the kitchen removal charges, waste disposal, labour or fitting charges, appliances, sinks and electrical & plumbing works.

This offer will be invalid if not confirmed prior to the kitchen contract signing.

Only kettle tap systems from the following manufacturers are included in the offer:

Grohe, Quooker, Perrin & Rowe and Clearwater.

This offer can only be used towards the purchase of a kettle tap supplied by CLOPPENbourne Kitchens and has no trade-in or any other monetary value.

The qualifying kitchen spend excludes VAT.

The cost of your Kettle tap systems will be quoted for using the retail price including VAT.

The cost of fitting the promotional item is not included in this offer.

Any warranty or guarantee of the promotional product is with the relevant manufacturer and will be subject to their own terms and conditions of use.

Purchase example A

If a customer's qualifying kitchen spend were to be £ 7,200 excluding VAT, this would allow for a kettle tap up to the retail value of £ 720 including VAT. However, if the client would like to upgrade the tap to one of a greater value, say £ 849, the difference in the retail value will need paying. For this example that would be a charge of £ 129. If on the other hand the customer selects a tap with a lesser value, say only £ 689, no cash back or credit will be given for the un-used available spend.

Purchase example B

If in the case of a kitchen's qualifying spend not reaching the minimum spend to qualify for a free kettle tap, 10% of the value of the qualifying kitchen spend can still be put towards a kettle tap purchase. If the qualifying kitchen spend in this example were to be £ 5,300 then a deduction of £ 530 would be taken off the cost of a kettle tap system. If the desired kettle tap cost is £ 689 an additional £ 159 would need paying in this example.

This offer can be modified or withdrawn by CLOPPENbourne Kitchens at any time prior to signing of the purchase contract without notice.
