## FREE QUOOKER KETTLE TAP OFFER

---

### Terms and Conditions

We are offering a free Nordic Quooker kettle tap in polished chrome and a PRO3 tank with our kitchens, subject to, but not limited to, the following terms and conditions.

A minimum spend of £ 9,500 excluding VAT is required to qualify for this offer.

This is calculated on the furniture, worktops and flooring spend excluding VAT. For clarification, this excludes, but is not limited to, all additional works such as the kitchen removal charges, waste disposal, labour or fitting charges, appliances, sinks and electrical & plumbing works.

This offer will be invalid if not confirmed prior to the kitchen contract signing. This offer can not be used in conjunction with any other offers by CLOPPENbourne Kitchens.

This offer can only be used towards the purchase of a kettle tap supplied by CLOPPENbourne Kitchens and has no trade-in or any other monetary value.

The qualifying kitchen spend excludes VAT.

The cost of your Quooker kettle tap system will be quoted for using the retail price including VAT.

The cost of fitting the promotional item is not included in this offer.

Any warranty or guarantee of the promotional product is with the relevant manufacturer and will be subject to their own terms and conditions of use.

### Purchase example A

*If a customer's kitchen spend were to be £ 9,500 or above, excluding VAT, they would qualify for our free Nordic Quooker kettle tap offer, with a RRP of £ 950 including VAT. However, if the client would like to upgrade the tap to one of a greater value, say a Quooker Flex in Chrome with a RRP of £ 1150, the difference in the retail value will need paying. For this example that would be a charge of £ 200.*

*Please ask in one of our showrooms for a full list of Quooker products and prices.*

### Purchase example B

*If in the case your kitchen qualifying spend does not reach the minimum amount of £9,500 to qualify for a free Nordic Quooker kettle tap, 10% of the value of the qualifying kitchen spend can still be put towards a Quooker kettle tap purchase. If the qualifying kitchen spend in this example were to be £ 6,300 then a deduction of £ 630 would be taken off the retail cost of a kettle tap system. If the desired Quooker kettle tap cost is £ 950, an additional £ 320 would need paying in this example.*

This offer can be modified or withdrawn by CLOPPENbourne Kitchens at any time prior to signing of the purchase contract without notice.
